

## **Research on developing College Baseball League in Hong Kong**

### Introduction

The Hong Kong Baseball Association (HKBA) was established since 1992 to promote and develop baseball activities in Hong Kong. It is a non-profit organization that registered under the Companies Ordinance, one of the government subvented National Sport Associations in Hong Kong.

Your good institution is invited to join this research; your valuable response would help us to have a better development of baseball in Hong Kong, especially in the college level, a major platform to let our high school students to keep their love sport “baseball” that they would have been participating at their earliest age at 7. There are overseas college baseball tournaments; however, we have no college team to be assigned. HKBA is ready to act as a supporting role for developing baseball in local colleges.
